The materials of Dianetics and Scientology are vast. The following is a complete listing of publications and other releases from 1948 through present time.

**Books**
Books are listed giving title, author, publication date, original publisher and where first published.

**E-Meters**
There were many models of the E-Meter throughout the years of its development. In this listing the most important ones are noted as they appeared.

**Films**
A number of 16 mm films were made between 1958 and 1970. These are noted as they appeared.

In 1977 these films began to be released as 8 mm (Super 8) film cartridges.

A large number of new films are in progress and planned. These, as well as the older films, are being issued in the form of film cartridges. Where these appear in the listing they are noted as film cartridges.

**Insignia**
Each of the insignia of Dianetics and Scientology is shown and described as at the time of adoption.

**Taped Lectures**
These are an issue line of both administration and auditing technology.

Tapes are listed showing tape number, lecture code (where applicable) and title. The tape number is a code for the date as follows. The first two numbers give the year, the next two numbers the month, the C stands for copy, and the last two numbers give the day of the month. The lectures codes, used where the lecture is part of a particular series, are defined in the list of abbreviations.

L. Ron Hubbard has said, “There are about 25,000,000 words on tape in archives which provide the consecutive path of discovery.”

“These tapes are not simply lectures. They are the ONLY existing record of all the advances which made possible the handling of the human mind.”

A special unit has been set up at the Flag Land Base, to get all tape lectures transcribed and published as printed volumes. The project is currently underway and is known as the “Tapes to Books” project.

INSIGNIA

The Scientology Symbol

There are two triangles, over which the S is imposed. The S stands for Scientology and the triangle is derived from “SCI” (knowing in the fullest sense). The lower triangle is the A-R-C triangle (Alien—Reliability—Communication). The higher triangle represents the A-R-C triangle. These are the three elements which combined give understanding. The upper triangle is the K-R-C triangle. These are K for Knowledge, R for Responsibility and C for Control.

The KRC triangle acts like the ARC triangle. When one corner is increased the other two also rise.

The Scientology symbol (‘S’ and double triangle) first appeared in 1952.

The symbol as well as appearing in auditors’ blazer badges, release pins and clear bracelets, is worn as lapel pins, tie tacks, rings of various designs, earrings, key rings, money clips, cigarette lighters, brooches, necklaces and otherwise displayed in car badges, decals, flags, etc.

The Philadelphia Doctorate Lectures were given in Philadelphia, Pennsylvania, from Monday, 1 December, through Friday, 19 December 1952. The material covered included a wide analysis of human behavior, the handling and control of Homo sapiens, the highest level of atomic and molecular phenomena, a complete coverage of Standard Operating Procedure, Issue Five, and a full expansion of the new professional course textbook, *Scientology 8-8008*.

**BOOKS**

The December Lecture Charts of L. Ron Hubbard, published by the Hubbard Foundation, Philadelphia, Pennsylvania, 1953. Some 70 charts were drawn by L. Ron Hubbard in the course of the Philadelphia Doctorate Course Lectures and these were made into a book to be used by students studying the course in the future.

**Self Analysis in Scientology—A Handbook of Self Processing in Scientology**, by L. Ron Hubbard, published by the Hubbard Association of Scientologists, Philadelphia, Pennsylvania, April, 1953. This was the original *Self Analysis* adapted to Creative Processing. This edition of *Self Analysis* is out of print and the original *Self Analysis* is in use.

**WHAT IS SCIENTOLOGY?**

*This is Scientology: The Science of Certainty*, by L. Ron Hubbard, published by the Hubbard Association of Scientologists, Philadelphia, Pennsylvania, June, 1953. This book was later combined with the *Scientology*: *Auditor's Handbook* and other material to make the book *The Creation of Human Ability*.

*Introduction to Scientology*, taken from the works of L. Ron Hubbard, published by the Scientology Council, Los Angeles, California, June, 1953.

The *Hubbard Foundation Note- book*, taken from the works of L. Ron Hubbard, published by the Hubbard Foundation, Philadelphia, Pennsylvania, late 1953. This notebook was awarded to all students who successfully completed the course at the Foundation during the span of its existence; March 1952 through October 1953.

**E-METERS**

Since the range of earlier meters was insufficient to register all preclears the Model H-53-DS (Double Scale) was designed with an expanded range and made available in 1953. The Model HM-4 was also introduced in 1953. HM-4 stands for Hubbard Meter No. 4—the first meter being Model 1, the H-52-IR being Model 2, the H-53-DS being Model 3 and the HM-4 being Model 4. All four meters looked much the same. The Model E-54 was presented at the First International Congress of Dianetics and Scientologists, September 1953, in Philadelphia, Pennsylvania, but it was overly complex and was never much used in auditing.

**Dianetics 355**, by L. Ron Hubbard, was published in April, 1955. **E-METERS**

Though more a curiosity than an auditing tool, the “Beep” meter was first available in 1954. It would give off a sound—a beep—when a probe was connected to a painful area of the body. Lecture No. 34 of the 3rd American ACC was entitled “Audio (Beep) Meter Demo” in which L. Ron Hubbard demonstrated and discussed this meter. The beep meters available in 1954 were the AR Audio Registration SPECIAL, the AR-5 and later in the year the E-AR-400. fancier and more complex meters were also made available during 1954—few were ever used in auditing. These were the E-400-A and E-400-B models. These were the last of the Mathison meters. In the years 1955 through 1957 E-Meters were not generally in use.

**INSIGNIA**

The Hubbard Association of Scientologists International was formed in the Spring of 1954. Its purpose is to disseminate Scientology, to advance and protect its membership, to hold the lines and data of Scientology clean and clear, to educate and process people toward the goal of a civilized age on Earth second to none, to survive on all dynamics.

The Minister’s Medallion and Pin

The minister’s ceremonial medallion and ribbon was first introduced in 1953 or 1954.

It is a gold cross on a white field, 2 1/2 inches in diameter, 3/8” thick. The ribbon is black.

The minister’s lapel pin is the same design as the minister’s medallion, but lapel pin size.

These insignia are worn by ordained ministers of the Church of Scientology.

The Hubbard Communications Office Insignia

This is a shield with the S and double triangle and the initials HCO placed vertically, to the right.

Below the shield on a banner is the motto of HCO: "Bring Order."

HCO is basically a communications office. Formed in the 1950s, HCO builds, holds, maintains, mans and controls the organization and it is the orders issue section.

The Scientology Cross

The Scientology Sunburst Cross, the basic design of which was found by L. Ron Hubbard in an ancient Spanish Mission in Arizona, is the exact official insignia for Scientology ministers.

The cross is three inches high and two inches wide, made of sterling silver and worn as a necklace by men and women alike. The cross is suspended on a fine silver chain.

The cross is at once simple and ornate, and has eight points. It is available nowhere outside the Church of Scientology. It is a true eight dynamic Scientology cross.

The Scientology cross is displayed in larger and smaller sizes. Large crosses of wood and other materials are not uncommon as wall hangings. Very small versions are also worn as pins.

E-METERS

The new "Blue" American transistorized E-Meter was ready in time for the 19th American ACC in Washington, D.C., in January, 1958. A meter was also developed around this time that projected and displayed the meter dial and the tone arm. It was used for classroom auditing demonstrations.

The use of the earlier Mathison meters was cancelled at this time.

In Great Britain the "Green and Gold" meter was built. At the time of the 5th London ACC L. Ron Hubbard had a number of these modified so that they would read standard. The "Green and Gold" meter was used in this ACC.

INSIGNIA

The Operating Thetan Symbol

The symbol used for OT activities is an oval "0" with a horizontal bar and a vertical bar down from its center to the bottom of the "0". A person attaining Section V OT may have a wreath completely around the outer side of the "0." The OT symbol is worn on necklaces and rings.

The Sea Organization Symbol

The laurel wreath represents victory. Used throughout history to crown poets, artists and champions. It not only represents the physical victory, but the series of inner victories achieved by the individual. It is associated with the head—the traditional abode of the spirit.

The star is the symbol of the spirit. The five-pointed star signifies "rising up towards the point of origin". The laurel wreath and star in combination signify the victory of the spirit. Its proper color is always gold. The star is not trapped in its victory, but is in the open field towards the top of the wreath, allowing free exit beyond its victory. The symbol is in a field of blue symbolizing Truth.

The Sea Organization, founded August 12, 1967, is a fraternal organization existing within the formalized structure of the Churches of Scientology.

The Sea Organization symbol is worn as cloth badges, brooches and rings.
