The materials of Dianetics and Scientology are vast. The following is a complete listing of publications and other releases from 1948 through present time.

Books

Books are listed giving title, author, publication date, original publisher and where first published.

E-Meters

There were many models of the E-Meter throughout the years of its development. In this listing the most important ones are noted as they appeared.

Films

A number of 16 mm films were made between 1958 and 1970. These are noted as they appeared.

In 1977 these films began to be released as 8 mm (Super 8) film cartridges.

A large number of new films are in progress and planned. These, as well as the older films, are being issued in the form of film cartridges. Where these appear in the listing they are noted as film cartridges.

Insignia

Each of the insignia of Dianetics and Scientology is shown and described as at the time of adoption.

Taped Lectures

These are an issue line of both administration and auditing technology.

Tapes are listed showing tape number, lecture code (where applicable) and title. The tape number is a code for the date as follows. The first two numbers give the year, the next two numbers the month, the C stands for copy, and the last two numbers give the day of the month. The lectures codes, used where the lecture is part of a particular series, are defined in the list of abbreviations.

L. Ron Hubbard has said, "There are about 25,000,000 words on tape in archives which provide the consecutive path of discovery. "These tapes are not simply lectures. They are the ONLY existing record of all the advances which made possible the handling of the human mind."

A special unit has been set up at the Flag Land Base, to get all tape lectures transcribed and published as printed volumes. The project is currently underway and is known as the "Tapes to Books" project.

Insignia

The Scientology Symbol

There are two triangles, over which the S is imposed.

The S stands for Scientology which is derived from "SCIO" (Knowing) and C for Control. The KRC triangle acts like the ARC triangle. When one corner is increased the other two also rise.

The Scientology Symbol is the one now in use and it has replaced this Creative Processing version which is now out of print.

**INSIGNIA**

The Hubbard Association of Scientologists International was formed in the Spring of 1954. Its purpose is to disseminate Scientology, to advance and protect its membership, to hold the lines and data of Scientology clean and clear, to educate and process people toward the goal of a civilized age on Earth second to none, to survive on all dynamics.

_Phenomenon of Thorazine_ was available to delegates and used by seminar leaders.

**E-METERS**

Though more a curiosity than an auditing tool, the “Beep” meter was first available in 1954. It would give off a sound—a beep—when a probe was connected to a painful area of the body. Lecture No. 34 of the 3rd American ACC was entitled “Audio (Beep) Meter Demo” in which L. Ron Hubbard demonstrated and discussed this meter. The beep meters available in 1954 were the AR (Audio Registration)4 SPECIAL, the AR-5 and later in the year the E-AR-400. Fancier and more complex meters were made available during 1954—few were ever used in auditing. These were the E-400-A and E-400-B models. These were the last of the Mathison meters. In the years 1955 through 1957 E-Meters were not generally in use.

INSIGNIA

The Hubbard Communications Office Insignia

This is a shield with the S and double triangle and the initials HCO placed vertically, to the right. Below the shield on a banner is the motto of HCO: “Bring Order.”

HCO is basically a communications office. Focused in the 1950s, HCO builds, holds, maintains, mans and controls the organization and it is the orders issue section.

The Scientology Cross

The Scientology Sunburst Cross, the basic design of which was found by L. Ron Hubbard in an ancient Spanish Mission in Arizona, is the exact official insignia for Scientology ministers.

The cross is three inches high and two inches wide, made of sterling silver and worn as a necklace by men and women alike. The cross is suspended on a fine silver chain.

The cross is at once simple and ornate, and has eight points. It is available nowhere outside the Church of Scientology. It is a true eight dynamic Scientology cross.

The Scientology cross is displayed in larger and smaller sizes. Large crosses of wood and other materials are not uncommon as wall hangings. Very small versions are also worn as pins.

INSIGNIA

*The Operating Thetan Symbol*

The symbol used for OT activities is an oval "O" with a horizontal bar and a vertical bar down from its center to the bottom of the "O". A person attaining Section V OT may have a wreath completely around the outer side of the "O". The OT symbol is worn on necklaces and rings.

*The Sea Organization Symbol*

The laurel wreath represents victory. Used throughout history to crown poets, artists and champions. It not only represents the physical victory, but the series of inner victories achieved by the individual. It is associated with the head—the traditional abode of the spirit.

The star is the symbol of the spirit. The five-pointed star signifies "rising up towards the point of origin". The laurel wreath and star in combination signify the victory of the spirit. Its proper color is always gold. The star is not trapped in its victory, but is in the open field towards the top of the wreath, allowing free exit beyond its victory. The symbol is in a field of blue symbolizing Truth.

The Sea Organization, founded August 12, 1967, is a fraternal organization existing within the formalized structure of the Churches of Scientology.

The Sea Organization symbol is worn as cloth badges, brooches and rings.
